

Director of Technology

Location: Beverly Hills, CA

Department: Technology

Type: Full Time

Min. Experience: Experienced

FastPay is seeking a Director of Technology with a proven track record to lead development of our integration platform and improve existing infrastructure. At FastPay you will be working with cutting edge technologies to analyze, build, and develop the software platform for the next generation of B2B lending services. You will be collaborating with a top tier team of technology and financial professionals to help design, implement, and maintain the platform that processes and manages FastPay's external partner integrations and \$200mil+ lending portfolio.

All applicants should have a strong interest in software architecture and finance, taking projects from inception to completion.

Desired Skills & Experience

Required

- Proven track record of leadership experience developing two or more deployed technology projects
- Five or more projects of systems or web application programming experience
- HTML5/CSS/Javascript and AJAX frontend development
- Extensive knowledge of SQL and NoSQL database technologies
- Keen understanding of functional programming techniques in addition to traditional OOP
- People management experience
- Ability and interest in mentoring junior developers
- Experience in directly communicating with executive level staff and executive level customers

Desired

- Experience developing and deploying applications in a mixed platform environment (Windows / Linux) and cloud
- Familiarity with statistical analysis and/or machine learning
- Experience and interest in financial products and services
